As HE I am always happy to meet new entrepreneur's and share innovative ideas which help address also my company to improve.

Erasmus for Young
Entrepreneurs

DESCRIPTION OF ACTIVITIES, OBJECTIVES REACHED AND OUTPUT (from the NE if you are the NIO or from) the HE if you are the HIO)

In my three months spent in Greece as NE in FEREIKOS company I have been able to learn different skills that will be useful to me in the creation of my company in the future. In addition to having increased my entrepreneurial side, I also had the opportunity to grow on a personal level thanks to the Erasmus experience and to improve my level of English. In addition to the new knowledge gained from this experience, I also had the opportunity to meet people with an entrepreneurial mindset and this had a strong impact on my experience.
